

# The American Society of Access Professionals

## Thanks Its 17<sup>th</sup> Annual National Training Conference Sponsors

We greatly appreciate our sponsors. Taking the time and resources to bring our attendees the latest in software and services is no small task. Our attendees have the opportunity to watch product demos and learn about the products and services on a voluntary basis. Sponsor fees help defray expenses which benefits all attendees. As a reminder, ASAP does not endorse any product or services. Sponsors are providing this resource to you on a collegial basis. And we ENCOURAGE you to learn about all of their products and services.

## Platinum Level Sponsors

# ArkCase

We created ArkCase FOIA because we heard customers' frustrations with expensive FOIA solutions that were hard to maintain. Our goal was to create an innovative solution with a modern interface and a wide range of functionality that enables a FOIA analyst to work faster, a citizen to have an improved experience, and IT to easily and efficiently configure the solution to meet the needs of the FOIA department. We did exactly that!

Since our inception, we have been primarily working with public sector customers and remain true to our core values while focusing on customer success. Our vision is to provide the most powerful, but easy-to-use FOIA solution that differentiates us from any other FOIA solution you have seen in the market. ArkCase FOIA was built with open standards and state of the art technologies that offers government agencies a comprehensive FOIA tracking and management solution, including FOIA submission, appeals and privacy requests.
